ABSTRACT

Bis(2-fluoro-2,2-dinitroethoxy)acetonitrile, $\text{N}=\text{C}-\text{CH}[\text{OCH}_2\text{CF}(\text{NO}_2)_2]_2$, is useful as a coplasticizer with bis(2-fluoro-2,2-dinitroethyl)formal in energetic plasticizer mixtures for plastic bonded explosives.

7 Claims, No Drawings

A statutory invention registration is not a patent. It has the defensive attributes of a patent but does not have the enforceable attributes of a patent. No article or advertisement or the like may use the term patent, or any term suggestive of a patent, when referring to a statutory invention registration. For more specific information on the rights associated with a statutory invention registration see 35 U.S.C. 157.
